CARD OF THANKS

Mrs. Wm. Hay and family wish to thank sincerely all friends and neighbors for help and sympathy given in their recent bereavement.

CARD OF THANKS

Mrs. Oscar Tidemann wishes to express sincere thanks for sympathy extended by Vulcan friends in her bereavement, also for kind assistance and floral tributes sent to the funeral of her beloved husband.

LOCAL NEWS ITEMS

Sid Northcott was a visitor in Calgary last Friday and Saturday.

Mr. Billy Smith motored to Calgary on Monday on business.

Work has been commenced on the renovating of the store formerly owned by E. E. McIntosh. The entire store will be remodelled, the property having been purchased by Errett King.

There was a very good attendance at the Saturday night dance held here on May 18th. The various tunes along the line were well represented. The dance was supervised by Messrs. Frankie Jackson and Dick Siminon. Len Davis and his orchestra provided the music.

At the Provincial Convention of Women's Institutes, to be held in Edmonton next week, Mrs. A. T. Martin will be present as constituency convener, and other representatives will be Mrs. Schenck and Mrs. Parslow.

M. O. Peterson will have a carload of lumber arriving from the Home Builders' Lumber Co., Vancouver, very soon; if you need large or small quantities let us know PROMPTLY so as to get in on this shipment.—M. O. Peterson, Imperial Hotel.

The annual picnic sponsored by joint locals, U.F.A., and U.F.W.A., will be held at the Lake McGregor Municipal Park on Wednesday, July 3rd. An extensive program of sports and athletics is being arranged, including baseball, football, horse racing, etc. Full announcement will appear shortly by posters and in an early issue of The Advocate.

Mr. A. J. Clayton received a telegram Monday morning bearing the sad news of the death of his only sister, Mrs. Emma McLeod, of Neepawa, Manitoba. She was a visitor in Vulcan last summer and made many friends while here. Mrs. McLeod was the mother of Mrs. (Dr.) J. P. Jones, who ministered a few years ago in Lethbridge, but is now secretary of social work of the United Church of Canada, with headquarters in Toronto.

IN AND AROUND THE CLUB

We met a man the other day who never reads this column. Can you imagine it?

Over at Gleichen the other night the Vulcan boys sure put on a good show, and judging by the applause the crowd got their money's worth. The Indian was no "dub" at that, and with a little more training and coaching will make quite a few of the boys step. Tex says he may have him here on a card soon.

Were you at the football game on Sunday? The Major and McKinnon put up a good defence for Union Jack, both as players and conversationalists.

Last week we prophesied that S. and M. were hatching some deep scheme. Now we have it on good authority that they purchased a few wells in Turner Valley the other day. Believe it or not.

Are you saving up for the 24th and 25th celebration. The games on the Midway should be pickings for everybody. Oh, yes!

We are going to see the Myers twins from Blackie on the 24th in an exhibition bout. These youngsters are always worth while, and sure make a hit with the fans.

Matt Copland wishes to thank all the players and fans who turned out to his benefit game on Sunday.

Did you hear John's story of the man with the affliction? Ask him to tell it.

Those who saw Mr. Don Rowland referee the fights in Calgary on New Year's Day will be pleased to know that he will be here without fail on the 24th. He is a good one, boys.

"There was a fellow who chased around for years trying to land a political job."

"What does he do now?"
"Nothing—he got the job."

Bill thinks his grass seeds are upside down as he cannot see any results to date.

GOING UP?

Let you off about here.
Time and they
Hear you in
But they don't
At, and it is about here;
Wish to get off
What floor you
You tell them
Are like this
Elevator boys

K. R. McLean, of McLean & Anderson, Sight Specialists, 224 8th Avenue West, Calgary, visits the King Drug Store every second Saturday. Make appointments at Drug Store or with Drs. Carson & Burke.

Dr. and Mrs. Steele, of Lomond, were town visitors on Tuesday last. Mr. Tommy Fenton, who has been with the Bank of Montreal in town for the past few years, has been removed to Wetaskiwin.

CHURCH OF CHRIST NOTES

Sunday, May 26 services will be conducted as usual at the Church of Christ I. W. Jenkins of Aldersyde will be present both morning and evening. At 11:30 the Bible School meets for an hour of study. At 7:15 the Christian Endeavor hold a service. We urge all members and those interested to be present at this service. At 8 o'clock Mr. Jenkins will take charge of the evening service. Come and bring your friends.

Miss Kathleen Holmes, R.N., is at the home of her parents for a week's holiday.

FRANK JACKSON WINS BOUT AT GLEICHEN

The Canadian Legion, Gleichen Branch, B.C.S.L., put over one of the best boxing cards last Friday night. Frankie Jackson met and defeated Kid Norwest, of Gleichen, in the seventh round when the local boy drove a terrific right hand to the Indian's jaw, which put him for a count. This bout was a case of a boxer meeting a fighter, but Frankie proved that he could fight as well as box. Kid Norwest gave the local boy something to think of in the first three rounds when he carried the fight to him, but after the third round the local boy was just too clever for the plucky Indian; this bout was a fast one and a clean one as both boys were out to win.

In the semi-wind-up Dannie Jackson, brother of Frankie, surprised the boxing fans when he held Jack Jensen to a six round draw. This bout was about the best on the bill. Both boys giving all they had, and it will not be long before the fans will see these boys in the main event.

Theron Vaughn got a bad break when he was adjudged a loser against Clarence Martin, another local boy. The Gleichen boxing fans sure would welcome Theron back on another card. Harry Ferguson got a close decision over Dannie Campbell in a snappy four-round bout.

Alex Wilson from Calgary was the referee for the semi-wind-up and the main go.

Quite a few local boxing fans were over and were satisfied with the local boys' showing.

Mr. and Mrs. Thompson, of Lomond, spent Tuesday last in Vulcan.

In view of the fact that the Vulcan Band will be fully occupied on Friday and Saturday, the usual Thursday night concert will be cancelled this week.

C. B. Shimp is offering Rand Petroleum Shares at 50c. This is an excellent opportunity to share in big profits later on.

Readers will much regret to learn that Mr. Neal Sygne, of Lake McGregor, passed away last evening after a brief illness. He leaves a widow, one son and one daughter to mourn his loss. Funeral arrangements are now being made.

Canada has received from Germany a total on all accounts of \$21,259,649.49, according to a statement tabled in the House of Commons by the Prime Minister in answer to a request relative to the matter of Hon. H. H. Stevens, Conservative (Vancouver Centre).

Down at Mountainview in the foothills of Alberta Rockies, not far from Cardston, a rancher trapped and killed a half-grown grizzly bear. The report also comes from that same source that mountain goat and elk are coming out to the foothill country as a result of heavy snows in the mountains.

C. Bartch, who is ranching south of Gleichen, shipped 51 head of cattle last week to Dawson City, Klondike, which makes the first shipment of 269 head he has sold to the Pacific Cold Storage Co., of Dawson. Before leaving the ranch the animals were all weighed and found to average 1555 each, thus some idea of the bunch may be had.

The Department of National Revenue collected \$51,333,912.92 in income tax collections between April 1 and May 15 this year, when the bulk of the income taxes are payable. This was an increase of \$9,131,611.96 over the same period last year when \$42,202,300.97 was collected. The total income tax collected during the fiscal year ending March 31 last, was \$59,122,297.76.

UNITED CHURCH NOTES

Rev. J. W. Brunton left on Monday afternoon to attend a meeting of the Alberta Conference Settlement Committee, of which he is a member.

The Conference proper will open in Central Church, Calgary, on Wednesday evening with an address by the president, Rev. Dr. Kirby.

Mr. Brunton will return on Saturday and conduct the regular Sunday services in Vulcan, with an appropriate young people's service in the evening.

The C.G.I.T. girls will have charge of a song service at Berrywater at 2 and Red Cross at 3:30 p.m. Everyone invited to these services.

ALL IS READY FOR VULCAN'S BIG DAY

Tomorrow Vulcan's Big Victoria Day Celebration will commence. In these columns we have already referred to the various events to be staged, and it only remains for the weather man to give us a square deal that the hopes of all may be realized.

Farmers are pretty nearly through with seeding, and there is no doubt that the real attractions provided will draw a big crowd.

The programme for the day will be found in our advertising columns.

The Vulcan boys' basketball team will meet Carmanagay on Saturday afternoon, and Blackie, on Saturday night. The last time the local boys played Blackie they took the short end of the score, but the local boys have improved a lot since and have won a couple of games against good teams; so it will be worth while going to see the games on Saturday as it should be a real sport.

The promoters of the Canadian Legion (Vulcan Branch) are all set for the bell to ring for the first bout at 9 o'clock Friday night. The main event is for the featherweight championship of Western Canada, between Mel (Young) Cowie, the champion, and Len Harris, challenger, 10 three minute rounds. The semi-wind-up, Jack Jensen, Vulcan, and Claire Craner, Calgary, 6-3 minute rounds. Preliminary will be of four two minute rounds, between Billy Trevennon and Anderson of Frankburg; Theron Vaughn and Clarence Martin; Dannie Campbell and Harry Ferguson and the Myer's Twins from Blackie. A large crowd is expected, and a real good show is assured. Ladies with escort are admitted free.

OBITUARY

Oscar Tidemann

A funeral service for the late Oscar Tidemann, whose death we recorded last week, was held in the United Church on Friday last and was largely attended. Rev. J. N. Brunton conducted the ceremony at the church and at the graveside in Vulcan cemetery, and spoke words of tribute to the deceased and consolation to those left to mourn.

Many beautiful floral tributes spoke of the regard in which Mr. Tidemann was held.

The bearers were: Messrs. F. Keiver, A. G. Dickenson, Roy Ferguson, Jack Marshall, Russell Robinson and George Munro.

Messrs. R. Dahl, of Scottsburg, Sask., and John Dahl, of Juniata, Sask., brothers of Mrs. Tidemann, attended the funeral.

Deceased was born at Svalder, Norway, in 1885, came to North Dakota in 1903, and in 1918 moved to Vulcan where he satisfactorily filled two or three positions and made many firm friends. He married Emma Dahl in 1911, and his wife survives him, besides his father and two sisters in Norway.

William Hay

The community of Vulcan and district heard with regret, last week, of the death of William Hay, who passed away in Calgary on Thursday, May 16, at the comparatively early age of 48 years.

Mr. Hay was born in Edinburgh and served the Empire in the Boer war as well as in the last great conflict; he was a resident of New Zealand for many years, and came to Alberta about seven years ago. He was latterly employed by the Hacks Engraving Co., of Calgary.

Interment took place in Highland cemetery on Sunday last, Rev. J. N. Brunton performing the ceremony and Mr. A. W. Kelly being in charge of the arrangements.

The bearers were: Messrs. J. W. Bateman, J. Fulton, A. J. Clayton, J. Robson, G. Phillips and T. LeRoy.

The funeral was well attended and beautiful flowers testified to the esteem in which deceased was held.

Mr. Hay is survived by his wife, who resides in Calgary; mother, at Vulcan; brothers, Robert and Charles, Vulcan; David, Ottawa; James, Edmonton; and sisters, Mrs. Thompson, Chilliwack, and Mrs. Davis, Edinburgh.

LOCAL ITEMS

Mr. Cecil Denbigh, prominent insurance man of Calgary, spent a few days last week with his brother, Mr. Guy Denbigh, of town.

Miss Ruth Heslop, of southwest of town, left by train on Wednesday, May 15th, for Nanton, where she has accepted a position with the Government Telephone.

Mr. White, who has been spending the past month with his daughter, Mrs. Campbell, at Red Deer, returned to the home of his other daughter, Mrs. Wes, Griffin, on Tuesday night. Mr. and Mrs. Fred Simington and family motored to Calgary this week.

GOLF NOTES

A half dozen golfers from Stavelly visited the local club on Sunday to play in the second elimination round in the Calgary Herald competition. To date, Mr. H. L. Greene is six strokes up on his nearest competitor. The next and last round will be played at Claresholm on Sunday, May 26th, and this will decide who shall represent this district in the play for the trophy.

Vulcan golfers will visit Claresholm next Sunday and will call at Stavelly to play an inter-club match for the Stewart challenge cup.

LOCAL BOYS VICTORY AT BASKETBALL

On Saturday last Antrim boys' basketball team visited Vulcan for a friendly game and went home with the short end of a score of 21-14. The local boys played a good game to win and are improving every day. Antrim boys put up good opposition for the first half as the score stood at the end of that period 9-9, but the local boys seemed to get better in the second half. Allan Johnson and Clyde Clark were the high scorers for the local team.

Frank Jackson on refereed the game, and the Vulcan line-up was as follows: Bobby Marshall, Harry Ferguson, Allan Johnson, Clyde Clark, Curry Thoms and Featherstone.

The boys have the baskets fixed in the Skating Arena and will be practicing every night possible.

LOCAL ITEMS

Born to Mrs. S. Speer's private hospital on May 12, to Mr. and Mrs. Leslie Marshall, of Reid Hill, a son.

The regular meeting of the Protestant Women's Federation will be held in the school room of the United Church on Tuesday next at 3 o'clock.

Messrs. D. D. McQueen and Dyce Allan have been appointed to represent the local Elks' Lodge at the convention in Calgary on May 24th.

Dr. Carson, who was delegate for the Vulcan branch of the Canadian Legion at the recent convention, has returned and reports splendid progress by various branches in the province. Many points of vital interest were discussed.

FERRODALE CHAPTER MEETS

The regular meeting of Ferrodale Chapter No. 65, Order of the Eastern Star, was held on Tuesday evening, May 14. The chapter was honored by a visit from Mrs. Mary C. McClenaghan, of Lethbridge, Past Grand Matron of the Grand Chapter of Alberta, who visited the Chapter officially.

After the usual business of the meeting was transacted, and the degree work exemplified Mrs. McClenaghan gave a splendid address to the chapter, and also complimented the Worthy Matron, Mrs. Dawson and her officers on the splendid and impressive manner in which they put on the work.

A pleasing feature of evening was the presence of about twenty visitors, who were members of Champion chapter, one of whom was Mrs. Ella N. Beaubier, also a Past Grand Matron of the Grand Chapter of Alberta, who addressed the members in her usual pleasing manner. The members of the Chapter feeling greatly honored to have two Past Grand Matrons visit them on the same evening. On behalf of the Ferrodale Chapter, Mrs. Ross thanked Mrs. McClenaghan for her kind words to the chapter, and presented her with a small gift, a token of their appreciation of her official visit. Refreshments were served at the close of the meeting.

Mr. Phillips spent a few days in Calgary last week on business.

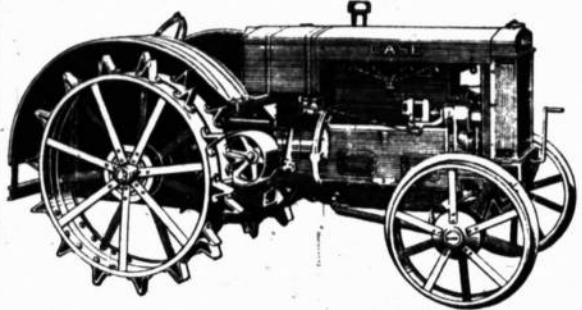

Dr. C. D. Sumner, who has been visiting with Dr. and Mrs. H. P. Barker for the past week, has returned to Quenest, B.C.

The local Elks' Lodge will have another big night on Monday next, May 27th, as there will be a big class for initiation and prospects are good for a real "jambooree."

Word was received by Mr. A. Mutz on Sunday, that Mr. A. Doyle of Fort Steele, B.C., had passed away the same day. Mr. Doyle was an old-timer in Fort Steele and district, and an intimate friend of Mr. Mutz, who is attending the funeral.

FATALITY AT LOMOND

A distressing accidental shooting fatality occurred here Saturday when Alberta Dilly, 10, was shot by her 12-year-old sister. The children were playing in an upstairs room with a gun when it unexpectedly discharged. The child (Alberta) was hit by the bullet and although two doctors were summoned she passed away in a few hours. An inquest was considered unnecessary. The child was the daughter of Mr. and Mrs. Alberta Dilly, C.P.R. agent at Lomond. The funeral took place from the Roman Catholic Church, Vulcan, on Tuesday, and the very large attendance evinced the sympathy of town and district.

A New Tractor by Case

The farmer's expectations of a tractor are higher today than they have ever been. In the new Model "L" Case Tractor, we have gone far beyond these expectations. At the same time this new tractor offers dealers an opportunity for larger sales and greater profits.

Case never builds hastily. This new tractor is the culmination of four years of extensive development. Four years of testing. Four years of bucking the hardest working conditions to be found between Texas and Canada. The final result is a machine far in advance of present day tractor design.

The new Case Tractor delivers great power for its size and weight. This is one of the many outstanding features. It has three forward speeds. It has a pressure lubricating system. It is sealed against dirt. It is comfortable to ride. It is remarkably easy to line up and handle.

A wide interest in this new tractor is assured because of the well-founded belief among farmers—that Case machines are better machines, a belief that is rooted deeper and deeper since the Case business was established eighty-seven years ago.

THE EMPIRE GAME

Human nature is such that we revolt against too many noble missions. Empire week may be treated as a game in which the whole family may indulge and with just the same results as if we took it ponderously. And it is wonderful how much educational value, it may have. Take the children shopping with you. Let them see for themselves the quantities of Alberta products which the merchants in town display upon their shelves. How many points in Alberta are putting unexpected products on the market, superior products too. Encourage the family to examine the labels on the breakfast cereals, the jams and marmalades, the pickles and spices. Encourage questions. Where do our rice, our coffee, our bananas come from? Could we buy them elsewhere? Should we buy them elsewhere? Why? It may not be considered good form to discuss what one eats and what one wears. But for a week, let us waive little points of etiquette, and indulge in an orgy of what and why? It will launch the entire family into adventures in practical geography, trade and commerce and history which will leave more lasting impression than much that is learned at school.

REAL JOY OF LIFE

The greatest joy in life is to hold the goodwill of your fellows. Affluence, leisure, health and material success may contribute to human happiness, but do not carry a guarantee of happiness. Kindness does carry that guarantee. A genial disposition radiating kindness and bestowing goodwill, knows no distinctions of birth or wealth. It may be developed by all. But like any other prize it must be striven for. Some people fashion their minds toward securing wealth, developing grasping habits which render them miserly in all their attributes. Others permit selfishness and self-interest to freeze the natural impulses of goodwill. Many lowly men who have won neither wealth nor fame, have won the greater prize of a kindly smile from all who come with the pale of their radiating sunshine. And when others rich and great are forgotten, the lowly ones will be remembered with loving recollection.

OUR BEST CUSTOMERS

It is a commonly accepted practice in business to accord greatest consideration to the best customers. The British Empire is Canada's best customer.

In 1928 Canada's exports to the British Empire were \$545,000,000. Canada's imports from the British Empire in 1928 were \$254,000,000, leaving a trade balance in our favor of \$291,000,000 in 1928.

With our best customer, the British Empire, we buy \$291,000,000 less from them than they from us. With our next best customer, United States, we buy \$333,000,000 more goods from them than they from us.

No one would seek to belittle the importance of friendly relations, with our good neighbor, United States. But not only do we buy entirely too much proportionately from her, but yearly trade relations are becoming more difficult with her because of high tariff barriers.

Why not, then give greatest consideration to our best customer, the British Empire, when through that consideration we may avail ourselves of a favorable preferential tariff and strengthen permanently the bonds of Empire.

BROTHERS ALL

Canada has three great needs—capital, population and diversified occupation. All Canadians are interdependent. There can be no lasting prosperity in the West; if there is depression in the East. The East cannot flourish indefinitely, if the purchasing power of the West is reduced. Each province must help the other, in order that the whole be strengthened. As a purely agricultural country, our population would not increase sufficiently. We need every industry which can be encouraged within our borders. We need diversified industry to encourage a diversified immigration. So great are our natural resources, so broad the sweep of the Dominion across the temperate zone, that our possibilities are well nigh boundless, if we held staunchly to the ties of Canadian brotherhood. The trappers in the far north, the fishermen on the Coasts, the lumbermen of the mountains, the wheat growers of the prairie, the fruit farmers, the cattle ranchers, the miners, the manufacturers. We are brothers all, calling upon each other for support. Only by this support and sense of brotherhood can we acquire our great needs, capital, population and diversified occupations.

RADIO ADVANCES

It has been to the credit of the short wave receiving and broadcasting sets to establish communication with other continents. Here and there all over Canada, amateurs using short wave reception and transmission are communicating with other amateurs in England, Europe and the islands of the sea. Not long ago radio telephone conversation was established between a C.N.R. train going 40 miles an hour and the Montreal head office. The connection was perfect. Telephone conversations across the continent are becoming common and recently telephone conversation between Winnipeg and London, England, were carried on. All these wonders have developed in the last few years. What lies ten years ahead?

Why some men go to jail: A well known U.S. oil magnate who was recently sent to jail for three months is working in the drug store of the prison as assistant to a blond-haired nurse.

EDITORIAL COMMENTS

A pro says that seventy-five per cent. of success at golf is achieved by following one rule, viz. keep your eye on the ball. But isn't there always the off-chance that you might hit it?

"Behind the Einstein theory lurks atheism," says Cardinal O'Connell. Now that we know what's behind it we are all the more curious to know what's in it.

Plumbers at war with each other in an eastern city make charges of unfair competition. Some of them go so far as to suspect others of bringing all the tools they need on a job.

Some daily newspapers think that newspaper enterprise demands not only collection and dissemination of news but also the creation of an appetite for it.

The man who says he takes no interest in sport is at a disadvantage. Two or three columns of his daily newspaper are of no use to him.

A gun fight between rum runners and enforcement officers reported by the press shows many shots fired and no person hurt. Why cannot the League of Nations arrange that future wars shall be fought out on the same principle?

It takes all sorts of people to make a world and naturally it sometimes gets out of sorts.

Why do the Communists pick on May 1st for their riotous demonstrations? Why not April 1st.

Take a pen, score out a lot of your liabilities, forget all about them, and your showing next year will be far better than it is this year. Too bad we cannot all do what is proposed by or for the Canadian National Railways.

Euphemisms for this process are "capital re-organizations," and "reshaping the financial structure."

"Vignettes of Manhattan" is the title of a series of articles by Mr. Hector Charlesworth. If you thought it was anything else you were mistaken.

Who talks now of restoring relations with Russia? Surely there is evidence enough now that the Soviets are engaged in stirring up strife in other countries.

There have been many complaints about the lack of parking space, but none have come from churches.

A man in Brooklyn on being sent to prison, handed over the management of his business to his wife. He has been in prison eight years and during that time the earnings of the business increased 1100 per cent. We are giving this as an item of news and with no thought of basing any suggestions or recommendation upon it.

Josephine was very extravagant and her bills followed Napoleon even to the island of Elba, says a biographer. Nevertheless the British came in for a lot of censure because they sent him, the next time, to the island of St. Helena where mails were infrequent.

A proposal in the Senate would forbid policemen carrying revolvers. But what if a wild and woolly Senator should run amok and start shooting up the street? What chance would a poor unarmed policeman have?

Even if he were armed, he wouldn't get any sympathy if he killed the Senator. No one desires a vacancy in the Senate. Some one else might get the appointment.

Miss McPhail, M.P., told a meeting of the Women's International League for Peace and Freedom that Britain and the United States had arrived at a critical stage of disagreement with respect to disarmament. That woman simply can't keep a secret.

Although a shareholder in the Canadian National and owning no stock at all in the C.P.R., we could all most wish the latter had grabbed the three little railways in the east recently taken over by the former.

"We have lived the full allotted span of parliamentary life," Premier Stanley Baldwin said during a speech at Monmouth recently. "We have been sober and let off no fire works near the end. We have died quietly and decently in our beds, which is a deal better than dying bankrupt or in prison or on the scaffold."

JAMAICA BANANAS

A definite move to advance the inter-Empire trade, had concrete result when bananas from Jamaica arrived on the Western Canadian market. Calgary received a two car consignment. This has been the first appearance of Jamaica bananas on Western markets. Hitherto bananas have come from United States Mexico and Central America. Transportation and a monopoly of trade have kept banana prices very high. In order to promote the West Indian trade, Canada agreed to place a duty of 50c a bunch on bananas imported through American ports, and the C.N. constructed a fleet of liners to run between Montreal and the West Indies. The new duty imposed by Canada, would mean \$200 tariff on a single carload of American fruit. As soon as U.S. interests had learned that Jamaican bananas were in Western Canada, they telegraphed price quotations 60 to 75 cents lower than those previously quoted. The Canada West Indies Co., Ltd., of Montreal, and Jamaica has guaranteed to supply the banana trade. Later on it is expected that such perishable fruits as grapefruit, oranges and pineapple will be shipped from the British West Indies. Not only does this more stimulate inter-Empire trade, but it will provide fruit at more reasonable rate to the consumer.

A prominent speaker in his address recently said in the course of same to the ladies: "You can lead the nation, and the nation needs leading, but you cannot lead anyone by spending your afternoons at the bridge table or over the tea cups." To the men he passed on this remark: "We do not honor our mothers today as we should. I know business men who bury their mothers and never see the plot where they were laid again, never think of decorating with a fern, flower, plant or shrub." Straight talk, we should say.

GENERAL ELECTRIC Refrigerator

"Makes it Safe to be Hungry"

You will always be proud of a General Electric Refrigerator, for it is different from all others. The "years-ahead" design includes a hermetically-sealed steel casing mounted on top, which encloses all the machinery. So quiet you can barely hear it. So automatic you never need to oil it. So efficient it always keeps the temperature below the 50-degrees danger point.

MAKE WAR ON PESTS

To all interested in the saving of farm crops and in the propagation of game birds, the following contests should appeal. These competitions are organized by the Department of Agriculture. As a result of last year's competitions, generous sums of money were distributed through the province last fall.

Cash prizes from one to two hundred dollars will be paid by the Dept. of Agriculture for gopher tails, feet and eggs of crows and magpies taken in 1929 up to November 1.

Points Checked—One point for each gopher tail; two points for each crow's foot; two points for each magpie's foot; two points for each crow's or magpie's egg.

Competition for Children—All persons of school age attending Separate Public or High School may compete. Four hundred and sixty-five cash prizes from one to seventy-five dollars will be paid in order to those getting greatest number of points. Two hundred points must be earned to qualify.

Competition for Schools—The five schools earning greatest number of points will be in order awarded prizes ranging from ten to seventy dollars. Over 2500 points must be earned to qualify. (Children may enter as individuals and with their school).

Competition for Residents—One hundred fifty prizes from one to seventy-five dollars for residents securing greatest points. Two hundred points must be earned to qualify.

Competition for Clubs—Six cash prizes totalling \$600 awarded to Game Protective Associations, Gun Clubs and other organizations winning greatest number of points. Over 10,000 points earned to qualify.

INTERESTING NEWS

The B.C. Egg Pool has opened its Vancouver and New Westminster receiving stations with about 900 contracts called up. The opening of the Abbotsford station, in the Fraser Valley, and the Courtney station on Vancouver Island will follow.

About fifty applicants for membership in the Brandon Aero Club are applying for pilot licenses; this number being more than that required to form a club. The school of instruction has secured favorable rates and it is figured that the approximate cost to the students will be about \$200.

The Alberta Wheat Pool made a definite start the other day in extending its country elevator system, when it was officially announced that 18 of these elevators had been contracted for and 12 others bought over from different interests.

Plans for placing 1,000 young British immigrants in Ontario during the present season were presented to the Board of Home Missions of the United Church of Canada the other day by G. W. Bowman, chairman, and A. MacLaren, secretary of the immigration committee. Last season they settled 151 boys from Great Britain with farmers in central and western Ontario. In the past 30 days Mr. MacLaren has placed 151 boys and 110 young men from British Isles with Ontario farmers.

Plant a garden. Your neighbor's chickens must have a place to scratch. Pigs are pigs, and hogs have become the farmers best money crop. Ask anyone of those farmers who had the foresight to take up that branch of mixed farming last fall.

This year the travellers through the forests of Canada will be issued permits, entitling them to this privilege and requiring that they use their privilege with judgment. This ruling is in the interest of Forest protection. It is placing on the individual camper the responsibility of guarding the forest wealth of Canada and is an aid to the work of the Forest ranger.

Gas Forces Woman to Sleep in Chair

"Nights I sat up in a chair, I had stomach gas so bad. I took Adierika and nothing I eat hurts me now. I sleep fine."

Mrs. Glenn Butler.
Even the FIRST spoonful of Adierika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adierika will surprise you.—Errett King, Druggist, Vulcan.

APPEAL CASE

The appeal of Milton H. Ward of Arrowwood from the judgment of Mr. Justice Boyle in the action of Wilson against Ward has been allowed by the unanimous judgment of the Appellate Division of the Supreme Court.

The action is one of considerable local interest, especially to our subscribers in the Arrowwood district. It involved the ownership of Section 23, Township 20, Range 24, West of the 4th Meridian which formerly belonged to one A. L. Pellon. Evidence at the trial showed that in May of 1927 Pellon applied to Ward for a loan of \$1800.00. Ward agreed to advance the required amount if Pellon would sell him the section for \$24,320.00 on terms whereby the amount of the advance should be considered the cash payment, the remainder being payable at the rate of \$5000.00 a year; Pellon to have the right to repurchase the land within a period of 90 days by repaying the \$1800 and interest. A very informal agreement was prepared and the case hinged upon the interpretation of this document. Pellon failed to repay the amount received from Ward within the 90 day period. Ward was at the time in possession of the land as tenant and continued in possession and later had considerable dealings with Pellon who subsequently transferred all his interests to Wilson, the Plaintiff in the action.

In the action Wilson claimed that the document was in fact given merely as security for a loan and should be interpreted as a security or mortgage. The Defendant Ward claimed that the document was in itself an agreement for sale and that Pellon and the Plaintiff by their subsequent conduct had not only admitted it to be a sale but also were estopped from denying it. The section was tried before Justice Boyle early in March and occupied almost an entire week. The Trial Judge held in favor of the Plaintiff, interpreting the document as a mortgage or security only, and gave to the Plaintiff the right to redeem by repaying the \$1800.00 and interest and subsequent advances made by Ward.

The judgment of the Appellate Division was delivered by the Honorable Chief Justice Harvey and the other members of the Court, Justices Hyndman, Clark, Mitchell and Lunney, concurred in his judgment. It completely reverses the judgment of the Trial Judge, holding that the document itself should be interpreted as an agreement for sale, that there was nothing in the evidence submitted by the Plaintiff as to what transpired when the agreement was made to indicate a contrary intention as claimed by the Plaintiff and that the evidence of the subsequent admissions and dealings by Pellon and the Plaintiff indicated that they understood that Ward was purchaser of the land. The judgment directs that the appeal be allowed, the trial judgment set aside and judgment entered for the Defendant Ward and that the Plaintiff pay all costs both of the action and the appeal.

The Plaintiff was represented both at the trial and on the appeal by J. S. Mavor K.C., and A. B. Gibson. A. A. Ballachee, K.C., and C. F. Heseltine appeared for the Defendant Ward, the successful appellant.

NO ICE OF SALE Domestic Animals Act (Municipalities)

Notice is hereby given under Section 48 of the Domestic Animals Act (Municipalities) that the following animals were impounded in a pound kept by Joe Munson, located on the S.W. 1/4 Sec. 3-17-23-4th, on the 8th day of April, 1929, and that the said animal was sold on the 20th day of April, 1929.

Black Stallion, no visible brand, wt. about 800 lbs., sold to C. L. Kuykendall, of Vulcan.

And that the said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

For information apply to the undersigned.

A NEW TRACTOR

See the Improved McCormick-Deering tractor before you buy. Just unloaded a carload this week and you will be surprised that we can sell so much for so little money. It has water pump, oil filter and other improvements, much more power with all the proven features of the McCormick-Deering tractor unchanged. See it the next time you are in town.

A party of Americans were being shown over an historic ruin.

"This," said the guide, pointing to a massive archway, "goes back to William, the conqueror."

"Why?" inquired one of the tourists, "don't it fit?"

At forty a man wishes he knew what he thought he knew at twenty.

"How long have you been married?"

"Long enough to learn that there are some things you can't say with flowers."

Baseball is a game in which any young man who strikes out bravely for himself receives no praise for it.

Teacher: "What famous man said Don't give up the ship?"

Modern Child: "I don't remember his name, but he was a Scotchman."

Inquisitive Old Lady: "Where did those large rocks come from?"

Tired Guide: "The glaciers brought them down."

Inquisitive Old Lady: "But where are the glaciers?"

Tired Guide: They have gone back after some more rocks.

Customer: "That chicken I bought yesterday had no wishbone."

Poulterer: "He was a happy and contented chicken ma'am, and had nothing to wish for."

In spite of what the almanac may say the longest day in the year is the one you spend in a day coach.

There probably never will be legislation enacted restricting the use of cigarettes or tobacco until such use impels a man to deprive his children of the necessities of life and to beat his wife.

Let us all help to make May 24th a real community day.

NEW APPOINTMENT

The Bank of Montreal announces the appointment of Mr. Wm. McDonnell as Superintendent of Alberta Branches, with headquarters at Calgary, to succeed Mr. C. W. Chester, who has been appointed Superintendent of Branches in British Columbia. Mr. McDonnell, who was born and educated at Peterboro, Ontario, entered the service of the Bank at Moncton in 1899, and after experience at other branches in Eastern Canada was transferred to Winnipeg in 1906. A few years later he became accountant at Moose Jaw, and after holding a similar position at Port Arthur returned as manager to Moose Jaw in 1912. From 1917 to 1923 he was assistant manager in Winnipeg, and in the latter year was promoted to the position of inspector of branches in the Western Division in which capacity he was in intimate touch with business activities throughout the three Prairie Provinces. For the past four years Mr. McDonnell has held the position of Assistant District Superintendent of Ontario Branches.

CO OP. INSTITUTE

The Co-Operative Institute which was held last year in Edmonton under the U.F.A. government auspices was so successful that this year it is planned to hold three of these conventions in Alberta, one at Vermilion, one at Olds and one at Lethbridge. They will run somewhat on the Chautauqua plan, the convention in Lethbridge opening a day earlier than that at Olds, and the Vermilion meeting still a day later. This gives the speakers an opportunity to circulate amongst the Institutes.

The south country is naturally interested most deeply in the Lethbridge convention. Mrs. B. F. Kiser, High River, is head of the committee in charge of the junior work of the convention committee, together with Messrs. Schofield and Peterson of Calgary and Benoit of Lethbridge.

The funds which have been launched these Institutes, have been from money handed to the Provincial Government from the Dominion Wheat Board. The finest of speakers on all co-operative methods are secured from Canada and United States, and these institute meetings have proved most attractive and profitable. The provincial speakers this year at Lethbridge are Premier Brownlee, Dr. Wallace and H. W. Wood. A number of outside authorities will also give lectures.

The gatherings are open to everyone and the dates of the Lethbridge Institute are June 24, 25 and 26.

GAS TO MONTANA?

Hon. Chas. Stewart, Minister of the Interior, has been in Calgary attending a conference regarding the possibility of utilizing the waste gas of Turner Valley. Many intricacies enter into this problem which concerns the Dominion Government, Provincial Government and City of Calgary. Gas wastage at Turner Valley has been a blot on efficiency for a time, and many solutions of varying natures have been offered.

Mr. Stewart said that three questions must be considered (1) the possible life of the gas supply of the field; (2) whether or not the gas supply would be required locally in the future; (3) what effect the exportation of gas by pipe line would have upon the quantities of gas running through other properties in the field.

The newest proposition to be considered is that of piping gas from Alberta oil fields to Montana. An application has been made by the Range Oil & Gas Co. Ltd. Calgary for these rights. Direct action is impossible until the whole question is considered.

The laying of a pipe line from Turner Valley to Montana would entail heavy expenditure, and the government, before granting a permit must be reasonably sure that the venture would be successful.

The first proposition which the government has considered in this connection was the manufacture of carbon black. This was being developed quietly, when added gas production in U.S. sent prices very low and the plan was temporarily abandoned. However, the very serious gas wastage of millions of cubic feet daily, demands that immediate steps be taken.

Another peculiar situation in the Turner field is confronting the Dominion government. A check up of Dominion properties shows that the government lands comprise only about thirty per cent. of the property in the district. The biggest bulk of property is owned by the C. P. R. and the Imperial Oil.

Mr. Stewart said: "We thought it possible that we might discontinue the sale of leases, but when we found out that other interests could come right up to our property line and drill and drain the resources from our properties, this plan also was abandoned."

Amongst those conferring with Mr. Stewart were Premier Brownlee, Mayor Osborne, Commissioner Graves, Solicitor Brockington and several representatives from Dept. of Mines Ottawa.

The warm hold which King George has in the affections of his people was once more demonstrated when he was received at Windsor, as the report says, "like a conquering hero."

EMPIRE SHOP WEEK

British Empire Shopping Week, May 25-31. This all-British week is commended to the attention of old and young. Its purpose is to centre the interest of the public on the vast possibilities of trade within the British Empire.

It is the aim of merchants to place before their customers the infinite variety of goods which are British productions—either of our own province, of Canada or of the British Empire. The interest of the public is necessary that the aim of this business project may be a success. Observe the goods offered, the quality displayed, the point of production. Criticise if you will. But at least, give this week a trial, so that you may have intelligent opinion on the merits of supporting home industries.

Much of Canada's prosperity lies in building industries within her own borders, or, failing that, trading with in the Empire. Provincial prosperity lies in building up provincial industries.

Enlightened self-interest is one basis of success. For one week, let us make a point of looking after our own. Let us buy Alberta made, Canada made or British made goods, and see if they do not compare favorably with foreign products.

WEALTH IN RABBITS

Every country apparently has a "Wild Animal Life" problem of some sort. Australia rabbit problem is unique—at least in its triumphant solution.

In early days, rabbits were protected by law. They however, multiplied so prodigiously that before many years, farmers were paying a bonus of 50 cents a rabbit to destroy them as pests. Even this did not have any noticeable effect. The next step was to force all farmers to kill a certain number per year. Finally some mastermind established freezing works at points where rabbits were thickest. The unemployed from the cities found employment on the farmers killing rabbits for the freezing works.

Thus the rabbit industry in its infancy. More skinning and freezing works were opened to make use of both carcasses and skin.

The great demand for fur has boosted the value of rabbits unbelievably, within a very few years. Only 14 years ago rabbits could be bought in Sydney for four pence a pair and sold at twelve pence a pound. Today carcasses are one shilling each and winter skins sell up to ten shillings a pound. In one month the rabbits marketed in Sydney alone were 30,000,000, which would bring to that port the sum at least of three million pounds sterling for one month's output of rabbits.

At present the world looks to Australia to supply the demands for rabbit fur. United States is the heaviest buyer with Europe in active competition. So the despised rabbit has become an important asset.

Also the fox has been made use of. The fox was introduced into the country in 1876 by English sportsmen. It also took to Australian life and flourished at the cost of sheep and lambs. Today the country is suffering from the thoughtless acts of a few sportsmen. But even the fox is turned to some account, as many people on lonely stations make a nice fat cheque out of fox skins, much the way in which coyote skins in Canada bring dividends.

Australian wild life is becoming a valuable asset, and if it were wisely conserved, it would become greater over many years. A few are wakening to the dangers of depletion.

OUR CANADA FISH

We not only catch most edible fish, we catch also the dreaded devil fish on the Pacific Coast. They are not wasted but are eaten by Orientals and used for bait.

We export products to one hundred different countries, bringing into Canada \$40,000,000 on export trade alone. A new "rapid freezing" process just perfected at Halifax, guarantees a steady supply of seafood to inland Canada and to foreign countries. This will greatly increase export trade.

The great map of the north is being unrolled to reveal a wealth of future fishing possibilities. In northern Alberta and northern Saskatchewan particularly, operations are steadily extending northward and expanding in magnitude. Our northern provincial fish are white, pickerel, trout, pike, grayling and perch.

As a by product, over 100,000 gallons of cod liver oil are yielded from sea fisheries. Nova Scotia leads with Quebec second.

In 1928 more than 85,000 persons were employed in fishing and canning plants. Added to this are employees of other industries to an extent dependent on fishing activity. Canadian miners dig \$239,418 worth of coal to supply canneries. Cordage plants, boat builders and sail makers, are all kept busy, while transport workers find the growing fish industry a help in keeping them employed.

Welcome Vanalta Oils—the latest addition to the growing string of southern Alberta oil companies. The company, headed by A. G. Clarke, will drill on A. P. Con. acreage in the Milk River field, it is understood.

In Appearance—In Performance
In Luxury and in Value

Nowhere can you find its equal

MAKE the test that thousands have already made! Drive this great 1929 McLaughlin-Buick—uphill, down dale, in traffic or on the straightaway! Compare it with any other car in the world... for performance, for comfort, for beauty! The results will prove to you... as they have to those other thousands... that there is literally no other car like McLaughlin-Buick. For no other car, at any price, can give you the astonishing combination of quality features offered by the 1929 McLaughlin-Buick such as Valve-in-head engine, triple sealed... exclusive system of synchronized springs and Lovejoy Shock Absorbers... torque-tube drive... sealed chassis. That is why McLaughlin-Buick sales are more than double those of the closest competitor, at or above its price. Come in! See and drive this car which has revolutionized performance and beauty standards.

KIRKCALDY NEWS

Mrs. Fischer, from Red Deer, is visiting with her aunt, Mrs. Baldwin. Mr. and Mrs. Bert Maisey motored to Calgary on Monday.

Mr. and Mrs. Leslie Middleton and Mr. A. C. motored to Lethbridge on Saturday.

Mrs. Glen House, from Gleichen, is visiting with her daughter, Mrs. John Olsen.

Mr. Percy Myers and family, from Red Hill, spent Sunday at the home of Mr. Joseph Myers.

A few friends helped Mr. and Mrs. A. A. J. Maisey celebrate their wedding anniversary on Sunday.

Mrs. Hawkins, who has been visiting with her daughter, Mrs. H. J. Todd, left for Saskatchewan on Wednesday.

ITEMS OF INTEREST

Home Oil will pay a 20 per cent. dividend to all shareholders of registered on June 8. With several of the Turner Valley companies paying a nice dividend it is no wonder that all Canada is talking oil. This time next year will doubtless see more of our better companies paying dividends.

Vancouver port elevator capacity will be boosted by nearly 4,000,000 bushels this summer. The Alberta Wheat Pool will erect a 2,700,000 bushel addition to existing elevator. This new unit will bring it to a total capacity of 5,150,000 bushels. Tenders have been let for same. In addition to above it is stated that the Midland Pacific Terminal will erect a million bushel addition to its elevator, at a cost of \$1,000,000. The addition will give them a capacity of 1,000,000 bushels. The two projects will bring the ports total grain capacity up to 14,150,000 bushels.

Having concluded their course of training at the provincial schools of agriculture at Olds and Vermilion, the first group of British boys came forward under the arrangement between the Provincial Government and the Overseas Settlement Board have been placed in farm work throughout the surrounding districts. The second group of boys will have completed their course at the end of the present month and it is suggested that farmers wishing to secure farm help of this type, communicate with the principals of either of the above schools.

Construction work was started this week on the C.P.R. extension line from Arrowwood to Blackie, and a crew of men and the necessary equipment of machinery and horses were unloaded here on Saturday evening last. Twenty-five miles of grade will be constructed, that being the distance between the two towns. It is said that three gangs will be employed and the work will be rushed to completion as speedily as possible. The contract is in the hands of the Tomlinson Construction Company of Winnipeg. Work will commence at three points, Blackie, Arrowwood and midway between both places. It is said that stations will be built at a point at or near Roy Carson's farm and at Evans' or Dudenhofer's farm. There is considerable conjecture on the part of people as to its ultimate effect on the town of Blackie, but meanwhile the businessmen and citizens generally will reap a benefit from the activity that will prevail there during the course of construction.

NEW MODEL "L" CASE TRACTOR

Of more than usual importance to the readers of this publication is the announcement by Case of the new Model "L" tractor as the latest addition to their extensive line of quality products.

Speaking with the Advocate, Mr. Roy Walker, the local agent, said that into this new tractor have gone four years of extensive developments and painstaking experiments. During this four years of experimental work, a great number of tractors were built and given severe field trials. Model after model was designed, built, tested only to be discarded after work in the field showed that still further refinements and improvements could be made. Nothing was hurried or rushed in this development work but sufficient time was permitted for thorough study and careful investigation.

All of this great effort and accurate painstaking care was put forth because the Case engineers were extremely anxious to be positively certain that the new tractor possessed to a marked degree every good point of present-day design with additional points of excellence as well. The new tractor was given stiff work-outs in the hardest possible kinds of conditions to prove conclusively that it would give the owners the utmost in dependability of performance, durability of construction and economy of operation.

Briefly, here are a few of its many excellent points of merit, pointed out by Mr. Walker:

Compact in Design

Although it is extremely compact in size and light in weight, it has an abundance of power. The engine is designed and built by Case. It is sturdy and powerful. It has renewable cylinder barrels and a three-bearing crankshaft which is drilled for pressure lubrication. The entire job is sealed against that enemy of all machinery—dust and dirt. An entirely new Case air cleaner removes the dirt from the air in a highly satisfactory manner.

The new Model "L" is fully adaptable, furnishing power in three useful ways—drawbar, belt and power take-off. It has three forward speeds—high is 4 miles per hour, intermediate, 3.25 miles per hour and low 2.5 miles per hour.

This model develops a very high percentage of its power on the drawbar, making it especially economical for work of this kind, says the manufacturer.

The tractor handles very easily. The front wheels respond quickly to a touch on the steering wheel, yet it cannot be jerked out of control. It turns easily with heavy loads and pulls steadily on the turns.

Ample provision has been made for the comfort of the tractor driver, as he has a roomy platform and a spring seat, which allows him to stand or sit in any position he finds most desirable. The seat can be swung from side to side, adjusted for distance from the steering wheel, or it can be entirely removed. All controls are within easy reach. A full view both ahead and behind can be had at all times.

One point that will appeal to all practical farmers who have seen the tractor at work is that all parts are exceptionally accessible for adjustment or repair. Removable plates make it very easy to get at parts inside the motor or transmission.

It is very easy and simple to line up the Model "L" for belt work, say the makers, because the operator has full vision along the top of the tractor. A brake on the belt pulley can be applied to quickly stop the belt driven machine. This brake is also used as a clutch brake to facilitate shifting gears.

The new tractor has plenty of style in its neat and trim appearance. It is low and compact and neatly striped. A long hood covers the motor and all of its parts, both protecting them and adding again much to its attractive appearance.

Two coats of high-grade paint are baked on, and the machine is finished with neat red and white striping. The body is a blue-gray, while the wheels are Case red—a fitting combination of colors for this clean-cut, powerful tractor.

The Vulcan Theatre has just recently been remodeled. The back of the hall has been elevated with a new box office facing the entrance. New seats are on the way and will be installed upon arrival.

FOR RENT

HOUSE—Six room house, with Garage, in town, for rent, possession on June 1st. Apply to R. K. McInnes, phone 2312, Vulcan. May 16-17-c

INTERESTING NEWS

Alberta will be represented by the Attorney General, Hon. J. F. Lymburn, when two cases from this province are heard shortly by the Privy Council in London. In pleading each of these cases, Mr. Lymburn will be associated with special counsel.

The important services rendered to Canadian agricultural and industrial life by two prominent Canadians were fittingly recognized at the recent convocation of the University of Alberta when the degree of LL.D. (honoris causa) was conferred on H. W. Wood, President of the United Farmers of Alberta and Chas. C. Camsell, Deputy Minister of Mines for the Federal Government. Mr. Wood has for many years been an outstanding figure in the development of agriculture and co-operation in Western Canada and Mr. Camsell has contributed greatly to the mining expansion which has taken place in the Dominion in recent years.

Tenders have been called and will be opened on May 22, for the second lot of road grading contracts to be awarded in connection with the Alberta Government's 1929 program of highway construction and improvement. Included in the projects are a 25 mile section of the Edmonton-Evansburg road from Blueberry Corner to Scha Corner, 10 miles from the Edmonton-Calgary highway west to Syl van Lake, 26 miles on the Pincher-Waterton Lake road and 12 miles from Irvine to the eastern boundary of the province. A further list of contracts is under preparation at the present time and announcement in this connection will be made shortly.

With the addition of 63 elevators either by construction or purchase to the number now in operation, the Alberta Wheat Pool has a total of 381 elevators throughout the province. Between March 22 and May 6 of the present year, elevators have been purchased at the following points: Acheson, Barbo, Bassano, Cyle, Cavendish, Chigwell, Coats, Haynes, Hazelbine, Lacombe, Lonsana, Midnapore, Oberlin, Orion, Sabine, Warspite, White-law, Whittla, Villeneuve. Elevators are being built at the following points: Alx, Athabasca, Balzac, Barnwell, Bennett, Bittern Lake, Brooks, Broxburn, Buoyant, Clandonald, Coalhurst, Colinton, Conrich, Cowley, Charbon-eau, Delacour, Diamond City, Dimsdale, Dimant, Grainger, Grantham, Hay Lake, Indus, Langley, Lea Raley, River Bend, Roschud, Rosemary, St. Albert, Strangmuir, Two Hills, Waskatenau, Weiss and Vimy.

Indicating the highly satisfactory condition of Alberta's finances, a surplus of \$1,815,871 of revenue over expenditure for the fiscal year ending March 31, 1929 is announced by Hon. R. G. Reid, Provincial Treasurer. This gratifying total is made up of a surplus of \$1,578,823 on general revenue and \$237,048 on the Provincial Telephone System. The former amount will be applied to reducing the debt of the province and the telephone surplus will be used to reduce the debt on that utility. A surplus to this amount constitutes a record for any year in the history of the province and exceeds the showing made by any province in the Dominion in recent years. General satisfaction is expressed by members of the Government with the sound position of the province's finances, this surplus being evidence of the fact that Alberta has turned the corner toward better times, as well as a stronger vindication of the Government's financial policies.

Greatly increased interest in turkey raising as a profitable sideline to general farming operations is reported throughout the province. Still further expansion is anticipated judging from the number of inquiries received by the poultry branch of the Department of Agriculture for the recent publication "Turkey Breeding and Management" which is a free bulletin available for distribution.
